College Works Painting
1682 Langley Ave.
Irvine, CA 92614

To Whom It May Concern,

My husband and I worked this month with Matt Doyle and his crew here in Westminster, CO. Although we typically hire people through word of mouth, we decided to listen to Matt's pitch when he contacted us.

We were both impressed by his willingness to spend so much time explaining the College Works commitments and his personal commitment to us. He walked us through the entire process so there were no surprises. His estimate was very professional; he kept every commitment to us, and was very patient even though I changed my mind about the colors three times!

Once we made the decision to give him the job, he worked quickly to schedule the color samples and the start date. His crew arrived when they said they would, were not at all disruptive (my office is in my home), and finished the job on time. They were always courteous and patient with me through the process and the house looks great!

I would recommend Matt and his crew to anyone I know; we were their first job with College Works, but you wouldn't know it. They paint and act like they have been painting houses for a very long time.

We are pleased with our decision to hire Matt and his crew.

Sincerely,
